BRIEF INFORMATION ABOUT THE ACTIVITY

TITLE OF THE ACTIVITY	Workshop on Artificial Intelligence in Healthcare
OBJECTIVE	<p>Understand AI Fundamentals: Provide a clear overview of AI concepts and technologies, including machine learning, neural networks, and natural language processing, specifically tailored to their application in healthcare.</p> <p>Explore AI Applications: Highlight current and emerging applications of AI in healthcare, such as diagnostic tools, personalized medicine, predictive analytics, and patient management systems.</p> <p>Address Challenges and Ethical Considerations: Discuss the challenges AI faces in healthcare, including data privacy concerns, algorithmic bias, and the ethical implications of AI decision-making.</p>

<p>DESCRIPTION</p>	<p>Mrs. Fathima Afroz led a workshop on "Artificial Intelligence in Healthcare," focusing on how AI technologies can revolutionize medical diagnostics, patient care, and healthcare management.</p> <p>The session explored practical applications, emerging trends, and the potential of AI to improve healthcare outcomes, efficiency, and innovation.</p>
<p>OUTCOME</p>	<p>Participants gained a comprehensive understanding of how artificial intelligence can be applied to various aspects of healthcare, including diagnostics, treatment planning, and patient management.</p> <p>They learned about current AI tools and technologies, their benefits and limitations, and how to implement AI-driven solutions to enhance healthcare delivery.</p> <p>By the end of the workshop, attendees were equipped with the knowledge to explore AI opportunities in healthcare and apply these insights to improve medical practices and patient care.</p>

BRIEF INFORMATION ABOUT THE ACTIVITY

TITLE OF THE ACTIVITY	Blockchain and IOT Integration
OBJECTIVE	<p>Improve the security of IoT networks and devices. Blockchain provides a decentralized and tamper-proof ledger, which can help secure data from IoT devices against unauthorized access and tampering. This is crucial for sensitive applications such as healthcare or financial transactions.</p> <p>Ensure the integrity and authenticity of data generated by IoT devices. Using blockchain, data from IoT devices can be recorded in a way that is immutable and verifiable. This prevents data manipulation and ensures that the data is reliable.</p>

<p style="text-align: center;">DESCRIPTION</p>	<p>Ms. Rangarajan K conducted a workshop on "Blockchain and IoT Integration," focusing on how blockchain technology can be leveraged to enhance the security, transparency, and efficiency of Internet of Things (IoT) systems. The session covered practical applications, technical challenges, and strategies for integrating blockchain with IoT to create robust, decentralized solutions that improve data integrity and operational reliability</p>
<p style="text-align: center;">OUTCOMES</p>	<p>Increased protection against cyber threats and unauthorized access. IoT systems become more resilient to attacks and data breaches, which is crucial for applications in sensitive areas like healthcare, finance, and smart cities. Reliable and tamper-proof data. Users and organizations can trust the data from IoT devices, which improves decision-making and ensures the accuracy of information used in critical applications.</p> <p>More autonomous and decentralized IoT networks. Reduced reliance on central authorities and intermediaries, leading to more resilient and scalable IoT systems.</p>

COMPANY PROFILE:

ABOUT US

Sixth Energy Technologies Pvt. Ltd is a Bangalore based full-stack IoT company, providing a unique range of IoT products and solutions across multiple industries in order to make businesses greener, profitable, and more sustainable through remote monitoring. We service prominent companies in industries such as telecommunications, banking, data centres, and multisite retail to ensure that our devices and solutions enable our customers to achieve their remote monitoring objectives.

At Sixth Energy, our primary driving force has been our passion to create a robust system which could help reduce the damage caused to the environment by overwhelming energy demand. Our solutions help reduce lead pollution caused by failed batteries, decrease energy consumption by optimizing fuel usage, and to shrink industrial waste by prolonging the service life of devices. Our solutions provide for data collection, data analysis, alerting, and reporting using our own IoT sensors, smart meters, smart cameras, controllers, gateways, cloud, analytics and applications; and, these are brought together by our IO Magic – a distributed IoT Operating System. We use AI and Machine Language to analyse data and deliver actionable insights to our customers enabling them to optimize their performance.

OUR JOURNEY

In the last 17 years, we have grown from four people group to 300+. Our technology leadership has helped us expand our footprints beyond India and into 14 countries around the world. We strongly believe that our people are our assets and do everything we can to provide a comfortable work environment, competitive benefits and unique real-world challenges for our employees to enable a fulfilling career path.

Our young talent consistently goes above and beyond their way to ensure that we are solving real-world issues in the best way possible. Our open-door policy means the management is always available to engage, communicate, and guide. We are committed to providing an enriching experience to our employees.

BRIEF INFORMATION ABOUT THE ACTIVITY

TITLE OF THE ACTIVITY	AL Model Deployment and Production
OBJECTIVE	<p>The objective of the "AI Model Deployment and Production" workshop by Dr. Vinothkumar was to provide participants with practical knowledge and skills for deploying machine learning models into production environments.</p> <p>This included covering best practices for model deployment, integration with production systems, performance monitoring, and ensuring scalability and reliability.</p>

<p>DESCRIPTION</p>	<p>Dr. Vinothkumar was leading a workshop on AI Model Deployment and Production, focusing on the practical aspects of taking machine learning models from development to real-world applications.</p> <p>The session covered techniques for deploying models, managing production environments, and ensuring scalability and reliability</p>
<p>OUTCOMES</p>	<p>Participants gained a comprehensive understanding of the end-to-end process of deploying AI models, including practical experience with deployment tools and techniques.</p> <p>They learned how to effectively manage model performance in production, handle scaling challenges, and integrate models into real-world applications, thus enhancing their ability to deliver operational AI solutions</p>

RESOURCE PERSON:

Dr. Vinoth Kumar, Professor and Head, Department of CSE, RR Institute of Technology, Bangalore, Karnataka, India. Currently he is working as a Professor and Head in the department of CSE, RRIT, and his introduction is given below:

- He is a Ph.D. graduate from Anna University, Chennai.
- Total Experience of 15 Years
- 5 Indian Patent filed [3 Granted and 2 Published in patent journal]
- Published 9 technical papers in the field of Machine Learning, Data Mining and Computer networks, Sensor Networks and Signal processing.
- Conference / Seminars / Symposiums Organized - 07
- Reviewer of peer reviewed international journals.
- MoE – IIC Innovation Ambassador for AI Model Deployment and Production

Training Feedback Form

Department of Computer Science and Engineering

Name of the Event : AI Model and BOT Integration
Date/Time : 08-02-22 / 5.0pm
Venue : CSE Seminar Hall.
Name of the Participant/College : A Jay Arupam.
Year/Section : II/A
Was the presentation clear and relevant to the topic : Yes
Was the Session well organized : Yes
Had the guest cleared all the doubts : Yes
What did you like most of this event : Yes
Comments : Good

Overall Feedback : (5 being the highest and 1 being the lowest)
